

Create Node Red Service

Step: 1 Create Node Red And Click App Uri

The screenshot shows the IBM Cloud console interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links to Catalog, Manage, and the user's account (Sumesh S's Account). Below the navigation bar, the breadcrumb trail reads "Resource list / App details /". The main heading is "Node RED XNCJY 2022-11-16".

The "Details" section on the left lists the following information:

- App URL: <https://node-red-jpagt-2022-10-20.eu-gb.mybluemix.net>
- Source: <https://eu-gb.git.cloud.ibm.com/110119104031/NodeREDJPAGT20...>
- Resource group: Default
- Deployment target: Node RED JPAGT 2022-10-20
- Created: 10/19/2022

Below the details, there's a "Services" section with a "Cloudant" service listed. It includes links for "Open dashboard", "Documentation", and "API reference", along with a "Credentials" dropdown. At the bottom of this section are two buttons: "Connect existing services" and "Create service".

The "Deployment Automation" section on the right shows the following details:

- Name: NodeREDJPAGT2022-10-20
- Location: London
- Tool integrations: Three icons representing different tools.

Below this, the "Delivery Pipelines" section lists two pipelines:

- ci-pipeline: Status is "Success".
- pr-pipeline: Status is "No stages detected".

On the far right, there's a vertical button labeled "ASK A QUESTION".

Step: 2 Click On "Go To Node-RED Editor"

The screenshot shows the "Node-RED on IBM Cloud" landing page. The header is "Node-RED on IBM Cloud". The main heading is "Node-RED" with the subtitle "Flow-based programming for the Internet of Things".

The page contains the following text:

Node-RED is a programming tool for wiring together hardware devices, APIs and online services in new and interesting ways.

This instance is running as an IBM Cloud application, giving it access to the wide range of services available on the platform.

More information about Node-RED, including documentation, can be found at nodered.org.

There are two buttons on the right side of the page:

- "Go to your Node-RED flow editor" (highlighted with a red box)
- "Learn how to customise Node-RED"

Step: 3 Node Red Is Ready To Use
